DETAILED ACTION

Faxing of Responses to Office Actions

In order to reduce pendency and avoid potential delays, TC 3700 is encouraging FAXing of responses to Office Actions directly into the Group at (703)872-9302 (Official) and (703)872-9303 (for After Finals). This practice may be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into TC 3700 will be promptly forwarded to the examiner.

1. Claim 22 has been amended for further examination

Allowable Subject Matter

2. Claims 1-16, 21 and 22 are allowed.

Art Unit: 3722

3. The following is a statement of reasons for the indication of allowable subject matter: No prior art of record discloses a mailing assembly comprising: a backing sheet which forms an envelope with a compartment that is adhered to a mailpiece; a mailing form that is removably attached to the backing sheet and is subdivided into a plurality of sub-parts, wherein each sub-part is variably printed with information; wherein at least one sub-part is inserted into the compartment; and wherein an adhesive layer is disposed on the backing sheet wherein the envelope formed from the backing sheet is formed via the adhesive layer on the backing sheet; wherein a third layer is disposed on the backing sheet having an auxiliary label with adhesive thereon; and further wherein the mailing form and the mailing label are separate and distinct substrates wherein the mailing form and the mailing label are detachably connected to the receipt card; and including all of the other limitations of the independent claim.

Main is considered the closest reference that is similar to applicant's invention. However, Main does not disclose wherein the mailing form and the mailing label are separate and distinct substrates, wherein the mailing form and label are detachably connected to the receipt card.
